SUMMARY

Results-driven AI and Computer Science engineering student with hands-on expertise in supervised/unsupervised learning, NLP, and ML model development. Proficient in Python, data preprocessing, and cross-functional collaboration. Seeking entry-level AI Engineer role to leverage technical skills and deliver scalable solutions.

EXPERIENCE

Intern – Krutanic Academy | June – Aug 2025

- Implemented supervised and unsupervised learning algorithms with hands-on ML model training, evaluation, and optimization techniques
- Applied NLP techniques to preprocess and extract insights from unstructured text datasets
- Collaborated on end-to-end ML workflows including data pipelines, feature engineering, and model validation

EDUCATION

B.Tech Artificial Intelligence | SRM Institute of Science and Technology | Aug 2025 – Present

- Engineered full-stack e-commerce web application using Python and database technologies
- Built ML models for classification, clustering, and predictive analysis

Class 12 | Benchmark International School | June 2021 – Mar 2023

- Strong academic performance in Mathematics, Physics, and Computer Science

SKILLS

Technical: Python, Machine Learning, Data Structures, Data Preprocessing, Feature Engineering, Supervised/Unsupervised Learning, NLP, SQL, Git/Version Control

Soft: Cross-functional Collaboration, Technical Communication, Problem-Solving, Leadership
